Void After: October 2011

Product: Clarifiers

File No. 5828

Issued To: Jensen Precast

CHARACTERISTICS: Clarifiers with three (3) compartments may be specific in task or function and are designed to separate liquids and/or solids having different specific gravity than water.

Clarifiers shall have a minimum size of 20 inches of manhole over the inlet and outlet compartments. It is recommended that a sample box be located at the outlet end of all grease interceptors so that the administrative authorities can periodically sample effluent quality. May be manufactured in concrete, steel, fiberglass reinforced polyester or polyethylene material. To be installed in accordance with the manufacturer's instructions and the requirements of the latest edition of the Uniform Plumbing Code.

Products comply with the applicable sections of the latest edition of the Uniform Plumbing Code® and the International Plumbing Code®. Manufactured in compliance with IAPMO PS 80-2008.

Products listed on this certificate have been tested by an IAPMO R&T recognized laboratory. This recognition has been granted based upon the laboratory's compliance to the applicable requirements of ISO/IEC 17025.
